The image shows a screenshot of a digital portfolio website. At the top left, the logo "dh hutchhouse" is displayed with the subtitle "Creative Design for Web & New Media". Below the logo is a dark rectangular box containing the text "We simply enjoy them all!" in white, surrounded by small red hearts. To the right of this box are two large, stylized blue cartoon horses with large white eyes and small manes. The background of the page is a dark, textured surface. Below the main header, there is a section titled "Don't get left in the dark!" followed by a paragraph of text. At the bottom left, there is a link "5 Reasons you should use Hutchhouse".

We simply enjoy them all!

Don't get left in the dark!

Understanding how to put your business online is not always an easy task - and keeping up with technology is almost impossible. Combining these two can be tricky, and not without its pitfalls. However, at Hutchhouse you can shed light on all your operations, giving you the chance to clearly see your path ahead & communicate with customers who know where they're going.

WHAT I CAN DO FOR YOU

[→DESIGN](#) DEVELOPMENT MARKETING & SEO

I believe that great design is in the details. I also believe that design must support functionality, and vice versa. One can't, and shouldn't, be used to overcome the weaknesses of the other. Design is more than just choosing colors, typefaces, shapes, and images. Good design works to present information in such a way as to support the information it presents.

When I design a web site, I'm constantly considering how the site will be built and how it will function. This way, you can be sure that both design and usability will be considered along every step of the way.
